RETS Data Access

This utilizes a RETS data access approach in distributing your listing data. All available property listing information can be accessed directly from the RETS server. The data contains those fields of information as determined by your board or association at the time of creation and made available to you for use and inclusion within **you or your firms website(s)** in whatever format you choose to utilize. All photos are also available for retrieval for each listing. A RETS login and password will be provided upon receipt of this agreement. While this agreement provides access to the RETS data, instructions on the implementation of the listing information is not. However, assistance can be located at www.rets.org.
